## PROFILE

Junior web developer with **5+ years of hands-on project experience** in full-stack development. Passionate about building responsive, user-friendly apps and solving data-driven challenges. Backed by 8 years in healthcare operations, bringing strong problem-solving, coordination, and analytical skills to tech teams. A proactive self-learner with a keen interest in modern software and hardware trends, development tooling, and continuous improvement.

## TECHNICAL SKILLS

### Languages

JavaScript (ES6+), TypeScript, HTML5, CSS3

### State Management

Redux, Redux Toolkit, Pinia

### Tools & Workflow

Git, GitHub, Jira, Vite, REST APIs, Axios, PWA

### Animations & Charts

Framer Motion, Lottie, ApexCharts

### AI Tools

Copilot, GPT, Gemini, Windsurf, Claude

### Frameworks & Libraries

React, Vue.js, React Native, Express.js

### Styling & UI

Tailwind CSS, Styled-Components, Bootstrap, React-Bootstrap

### Databases & Backend

Firebase, MongoDB, Node.js

### Internationalization

i18next, react-i18next

### Other

Miro, PowerBI, React Native OneSignal, Gifted Chat, SharePoint, Adobe Creative Suite

## DEVELOPMENT EXPERIENCE

### Vue 3 Job Tracker (PWA-ready)

- Developed a comprehensive job application tracker using **Vue 3, Pinia, Tailwind CSS v4, and TypeScript**.
- Explored Vue's Composition API, comparing it to React for state management and component architecture.
- Implemented a clean, responsive UI entirely with Tailwind CSS, drawing inspiration from industry best practices.
- Integrated **ApexCharts** for customisable data visualisation and **Firebase** for real-time data updates and admin-only authentication.
- Designed as a Progressive Web App (PWA) with offline capabilities and fast load times.
- Leveraged AI tools (GPT, Gemini, Claude) extensively for logic, debugging, and design decisions, enhancing development efficiency.

### PWA React App (Tattoo Studio Website)

- Designed and developed a fully responsive, PWA-ready website for a tattoo studio using **React, Styled-Components, and Framer Motion** for animations.
- Features include browser language and theme detection, user-adjustable settings, and a custom PWA installation flow.

### Real-time React Native Chat App

- Developed a real-time Android chat application with user **authentication, push notifications**, smooth animations, and a flexible, user-friendly interface.

### Dynamic React-Redux Calculator

- Built a dynamic calculator replicating Windows calculator logic and functionality using **React hooks (useState) and Redux Toolkit (RTK)** for state management.

### Vanilla JS Personal Portfolio Page

- Created a dynamic portfolio showcasing signature projects, implementing features like **lazy loading** and **pop-state** event manipulation using **vanilla JavaScript**.

## PROFESSIONAL EXPERIENCE
