## TECHNICAL SKILLS

### Frontend

HTML, CSS, JavaScript, React

### State Management

Redux, RTK (Redux Toolkit)

### Backend

Firebase, MongoDB

### Templating & Styling

Bootstrap, React Bootstrap

### Mobile

React Native

### Languages

JavaScript (ES6+), TypeScript

## EDUCATION

### Typescript Bootcamp: Beginner To Advanced, Udemy [🔗](#)

2024 – present | London, UK

Comprehensive training in TypeScript fundamentals and advanced concepts through practical projects like building a Node.js REST API with Express and TypeORM.

## PROFILE

Results-oriented web developer with 4+ years of hands-on project experience in web and app development. Previously, I spent over 7 years in the healthcare sector, managing private care institutions. I am passionate about coding, technology, and data-driven challenges, and I am eager to apply my skills in a professional web development role. A self-starter with a deep curiosity for tech innovation and a drive for continuous learning.

## DEVELOPMENT EXPERIENCE

After completing the *Udemy Complete Web Development Bootcamp* [🔗](#), I started building personal projects to enhance my practical skills. I first developed a React app integrated with a Firebase backend, featuring multiple authentication methods, including OTP verification. I then created a personal portfolio site using CSS, JavaScript, and DOM manipulation techniques. To expand my knowledge, I completed courses on TypeScript and Redux, which enabled me to build a calculator using React and Redux Toolkit (RTK).

Earlier this year, I completed a real-time React Native chat app with user authentication, customizable user settings, and push notifications. Most recently, I finished my first client project: a fully responsive tattoo studio website built with React, Styled-Components, Framer Motion for animations, and designed as a PWA-ready (progressive web app) app with a custom installation flow.

I'm currently advancing my TypeScript skills with a new Udemy course, *TypeScript Bootcamp* [🔗](#).

## ACHIEVEMENTS

### PWA React App [🔗](#)

Designed and developed a fully responsive, PWA-ready website for a tattoo studio using Styled Components, Framer Motion, and React Scroll. The app features browser language and theme detection, user-adjustable settings, and a custom PWA installation flow.

### React Native Chat-App [🔗](#)

Developed a real-time Android chat app with user authentication, push notifications, smooth animations, and a flexible, user-friendly interface.

### Dynamic React-Redux Calculator [🔗](#)

Built a dynamic calculator that replicates the logic and functionality of the Windows calculator using React hooks (useState) and Redux Toolkit for state management.

### Vanilla JS Personal Portfolio Page [🔗](#)

Created a dynamic portfolio showcasing my signature projects. Implemented features like lazy loading and pop-state event manipulation using vanilla JavaScript.

## **The Complete 2022 Web Development Bootcamp, Udemy**

2021 – 2022 | London, UK

In-depth training in web development with hands-on projects. Covered HTML5, CSS3, JavaScript, jQuery, Node.js, EJS, React, MongoDB, and more.

## **L5 Management and leadership in healthcare, Highfield Qualifications**

2019 – 2020 | London, UK

Advanced training in leadership and management practices within healthcare settings.

## **L3 Diploma in health and social care, Impact Futures**

2016 – 2017 | London, UK

Practical knowledge and competency development in healthcare systems and various care environments.

## **Bachelor's degree, School teacher (arts), KTIF**

2005 – 2009 | Debrecen, HU

Focused on pedagogy, psychology, and arts.

## **Mathematics and Informatics (2 finished semesters), University of Debrecen**

2004 – 2005 | Debrecen, HU

Explored core mathematical concepts including algebra, linear algebra, mathematical logic, and analysis.

## **PASSIONS**

- Technology and software trends
- Photography
- Music
- Science
- Astronomy
- Martial arts
- Longboarding

## **PROFESSIONAL EXPERIENCE**

### **Doctorcareanywhere.com, Rota Coordinator**

2023 – present | London, UK

Manage workforce scheduling with Quinyx, Dynamics, Jira, and PowerBI, while coordinating tasks and workflows via Miro. Create custom reports for internal and external teams, collaborate with HR and Patient Experience to enhance customer relations, and provide administrative support for payroll and database management.

### **Caremark, Deputy Manager / Care Coordinator**

2021 – 2023 | London, UK

Led quality management and compliance initiatives, supervised staff, organized training, and managed key client relations. Additionally, I oversaw budgeting, payroll, and invoicing tasks.

### **Caremark, Care Coordinator**

2020 – 2023 | London, UK

Allocated care workers using software like Staffplan and PASS.

### **Caremark, Field Care Supervisor**

2018 – 2019 | London, UK

Supervised care workers, conducted risk assessments, and provided training and mentorship.

### **N/a, Various Positions**

2012 – 2018 | London, UK

Held multiple roles, including shop assistant, gardener, and support worker, while adapting to life in a new country.

### **Damjanich J Primary School, School Teacher**

2010 – 2011 | Hungary

Taught art to 5th and 6th-grade students, organized school events, and provided pedagogical support to both students and parents.

## **SKILLS**

- Analytical thinking
- Project management
- Attention to detail
- Adaptability and quick learning
- Problem-solving
- Proactive mindset
- Strong task coordination
